Communication concerning the editorial policy and content of *Energy Research Abstracts* should be addressed to the Editor, *Energy Research Abstracts,* Technical Information Center, P. O. Box 62, Oak Ridge, Tennessee 37830.

The Secretary of the U. S. Department of Energy has determined that the publication of this periodical is necessary in the transaction of the public business required by law of this agency. Use of funds for printing this periodical has been approved by the Director of the Office of Management and Budget through June 30, 1978.

ENERGY RESEARCH ABSTRACTS

Published by the **Technical Information Center, Oak Ridge, Tennessee**
United States Department of Energy

Energy Research Abstracts (ERA) provides abstracting and indexing coverage of all scientific and technical reports, journal articles, conference papers and proceedings, books, patents, theses, and monographs originated by the U. S. Department of Energy, its laboratories, energy centers, and contractors.

Subject matter includes the entirety of DOE's research, development, demonstration and technological programs resulting from its broad charter for energy systems, conservation, safety, environmental protection, physical research and biology and medicine. *ERA* also covers other U. S. Government sponsored energy information and the international literature on reactor technology, radioactive waste processing and storage, and nuclear fusion technology. In addition, nonnuclear information obtained from foreign governments under agreements for cooperation is covered.

ERA is available on an exchange basis to universities, research institutions, industrial firms, and publishers of scientific information. Federal, state, and municipal agencies concerned with energy development, conservation and usage may obtain *ERA* free of charge. Inquiries should be directed to the Technical Information Center, P. O. Box 62, Oak Ridge, Tennessee 37830.

ERA is available to the public on a subscription basis from the Superintendent of Documents, U. S. Government Printing Office, Washington, D. C. 20402. The subscription rate for the 24 semimonthly issues including a semiannual index and an annual index is $184.00 for domestic subscribers and $230.00 for foreign subscribers. The semiannual and annual indexes are also available separately to subscribers. The cost for the semiannual index is $18.00 (domestic) or $22.50 (foreign); the annual index is $33.00 (domestic) or $41.25 (foreign). A single issue costs $5.55 (domestic) or $6.95 (foreign).

INDEXES TO ERA

Comprehensive indexes appear in each issue and are cumulated at the end of each volume. The report number indexes will be cumulated on both a volume and multivolume basis.

All documents abstracted are indexed by subjects and personal authors. Report literature is indexed also by corporate author and report number. Each of these indexes is preceded by an introduction explaining in detail the organization of the index and the principles by which it is compiled. The reader is referred to these explanations for information not found in the brief summaries below.

Corporates

Technical report literature is indexed using the name of the organization or institution responsible for the issuance of the report.

16557 (BAW—10108A) **Qualification of submerged-arc narrow strip cladding process.** Ayres, P.S.; Gottschling, J.D.; Jeffers, G.K. **(Babcock and Wilcox Co., Lynchburg, Va. (USA).** Nuclear Power Generation Div.). Mar 1976. 48p. Babcock and Wilcox, Lynchburg, VA.

Qualification of submerged-arc narrow strip cladding process, 1:16557 (BAW—10108A)

Personal Authors

Each author's name is indexed in the form appearing on the document abstracted, with the exception that given names are reduced to initials:

Adams, A.A., *See* Barger, H.J. Jr., 1:16409
Adams, M.S., *See* Titus, J., 1:17363

Subjects

The subject index consisting of entries naming specific materials, objects, and processes is arranged alphabetically. Document titles, informative phrases, or both specific to these entries are arranged alphabetically under the entries.

Examples:

DIET/RADIOSENSITIVITY EFFECTS
Influence of various diets on the radiosensitivity of guinea pigs, 1:17675 (ERDA-tr-110)
DIETHYLENETRIAMINEPENTAACETIC ACID

Report Numbers

Technical report literature is also indexed using report numbers. This index includes information on where individual reports may be obtained. While not reports, patents and conference papers are indexed here as a matter of convenience.

AVAILABILITY OF PUBLICATIONS ABSTRACTED

Public availability of all DOE reports is indicated in the report number indexes. The availability of other reports, when known, is also indicated. The availability of some unnumbered reports is given in the abstract.

Information on the availability of the published literature and unpublished conference papers abstracted in *ERA* can be obtained from the Technical Information Center, P. O. Box 62, Oak Ridge, Tennessee 37830.
